

Charity Walk Sponsor Form

National CSE Awareness Saturday 17th march

20 miles in under 10 hours

Name	Amount	Paid

The Time 2...Project was set up by Basis Yorkshire in partnership with Yorkshire MESMAC and funded by Henry Smith and The Big Lottery as part of their commitment to the CSE Funders Alliance to work with young people aged between 11-18 years old throughout North Yorkshire and City of York identified as medium to high risk of CSE from January 2016 for 3 years. The Time 2... project ensures the young person is centre to everything we do. A child centred approach allows us to work uniquely with each young person and remain focused on the child’s needs, including consideration of children with particular needs or sensitivities, and that children and young people may do not always recognise what may be an exploitative and/or abusive situation. We work one to one on a range of topics depending on their situation, which can include healthy relationships, consent, online abuse, sexual health, substance abuse as well as issues like family life and parent relationships.

We would like to take this opportunity to thank you for your donation!
